PROJECT NO. 9822**

Dear Mr. England,

Enclosed please find eleven (11) copies of the approval compliance Site Plans for the above referenced project.

Per your comments in the September 15, 2015, Attachment No. 1, the plan was revised as follows:

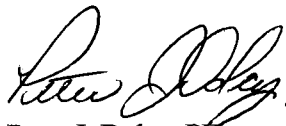

1. Two directional signs were added at the intersection of Atlantic Avenue with Sovereign Avenue and Montpelier Avenue. The locations are shown on dwg. No. 3. The sign manufacturer is currently revising the sign details. I will forward the sign package upon receipt.
2. The concrete sidewalk at all driveway entrances was revised and is shown on dwg. No. 3.
3. The transformer pad detail that was provided by ACE is shown on dwg. No. 9.
4. The decorative fence detail on dwg. No. 10 was revised to increase the footing depth below the frost depth.

I have also enclosed eleven (11) copies of the revised retaining wall details and a disk with plans in PDF and CAD format.

Please review the enclosed information and call me should you have any questions.

Sincerely,
