EXECUTIVE SUMMARY

On November 3, 2016, the Casino Reinvestment Development Authority (the "Authority") heard testimony and public comment on the above-subject application. The Applicant, Debaswrup Chokraborty (the "Applicant"), seeks variances pursuant to N.J.S.A. 40:44D-70(c) for its proposal to reconstruct a detached single-family residential structure on the property located at 9 Liberty Terrace in the city of Atlantic City. The proposed use is permitted in the Zoning District and will replace a previously-existing residential structure that was destroyed in Superstorm Sandy. The proposed single-family dwelling will be constructed at the required elevation within the footprint of the former structure.

During the hearing, the Applicant presented adequate evidence and testimony to satisfy the requirements of the Municipal Land Use Law for the grant of the requested relief. Specifically, the evidence and testimony demonstrated that the development proposal generally conforms to the technical requirements of the land use ordinances of the city of

Superstorm Sandy. The proposed single-family dwelling will be constructed at the required elevation within the footprint of the former structure.

The architect for the Applicant, Robert Bolton, introduced the application generally and provided background regarding the specific relief sought by the Applicant. He described the location of the site, existing conditions and development proposal. He noted the need to raise the structure in light of frequent flooding in the area.

Justin Auciello, P.P. was qualified as an expert in professional planning and provided testimony on behalf of the Authority. Mr. Auciello identified the variance relief sought in connection with the application. Specifically, the Applicant seeks variances pursuant to N.J.S.A. 40:55D-70(c) as follows:

- Minimum lot area: 30,000 square feet required; 853 square feet existing and proposed.
- Minimum lot width: 40 feet required; 16.10 feet existing and proposed
- Front yard setback: 10 feet required; 5.73 feet existing and 5.66 feet proposed.
- Rear yard setback: 25 feet required; 7.25 feet existing and 7.17 feet proposed.
- One side yard setback: 12 feet required; 0 feet existing and 0 feet proposed.
- Second side yard setback: 5 feet required; 0 feet existing and 0 feet proposed.
- Lot coverage: 35% permitted; 75% existing and 71% proposed.

Mr. Auciello opined that the Applicants had presented sufficient testimony to support the grant of approval of the application. Specifically, he opined that the relief from regular flooding and architectural improvements would benefit the community, and that the benefits would outweigh any detriments. Mr. Auciello noted that the proposed development is consistent what previously existed on the property, and the development pattern of the community generally.

CONCLUSIONS OF LAW

For variances requested pursuant to N.J.S.A. 40:55D-70(c)(2), an applicant must demonstrate through evidence and testimony that the positive and negative criteria of the statutory requirements have been met.

Positive Criteria

The positive criteria for variances requested pursuant to N.J.S.A. 40:55D-70(c)(2) is satisfied if one or more purposes of the Municipal Land Use Law would be advanced by a deviation from the zoning ordinance requirements and the benefits of that deviation would substantially out-weigh any detriment to the public good. Ketcherick v. Bor. Mountain Lakes, 256 N.J. Super. 646 (App. Div. 1992); Green Meadows v. Planning Board, 329 N.J. Super. 12 (App. Div. 2000).

The Applicant seeks “c” variances to deviate from the requirements of the zoning ordinance as set forth herein. The evidence and testimony demonstrate that the requested variances can be justified because the grant of the variances will promote the purposes of the Municipal Land Use Law. Specifically, relief from regular flooding and architectural improvements would benefit the community and promote the general welfare by creating a desirable visual environment.

Negative Criteria

Relief under N.J.S.A. 40:55D-70(c)(2) cannot be granted unless the negative criteria is satisfied. The negative criteria required for all “c” variances is that the requested relief can be granted without substantial detriment to the public good and without substantially impairing the intent and purpose of the zone plan and the zoning ordinance.

The evidence and testimony demonstrate that the grant of the requested variances will not create any detriment to the public good, and will not substantially impair the purpose and intent of the zone plan and zoning ordinance.

RECOMMENDATION

For all of the foregoing reasons, the Hearing Officer recommends that the Application for variances pursuant to N.J.S.A. 40:44D-70(c) be approved. The grant of approval of this Application shall be expressly conditioned upon the Applicant complying with all conditions of prior approvals, satisfying all representations made by the Applicant or by others on its behalf during the course of the hearing on this matter before the Hearing Officer.
