#12:

Change of Use – (d) Variance

The existing Use is that of a rooming house and an apartment, which is viewed as undesirable in the Master Plan for the Atlantic City Tourism district put forth by the CRDA. The ability to meet all of the requirements to allow access to the proper licenses to own and operate a rooming house has become increasingly difficult over the past few years. The original design intent was to convert the property into a triplex, which is permitted within the RC zone. However, the size of the lot and size of the existing structure as well as the cost to redevelop the site did not allow for that conversion. It was determined that converting the property into a duplex would allow us to reduce the intensity of the existing Use and to allow us to create a more stable and less transient living environment. It is understood that a duplex is not a multifamily use, however lessening the number of families / individuals from 5 down to 2 is a desirable outcome. In doing so the hope is to increase the overall safety and attractiveness of the neighborhood and help conform to the Master Plan for the Atlantic City Tourism District developed by the CRDA.

#15:

The Scope of work is to convert the existing structure into a duplex. This shall be accomplished by maintaining the first floor apartment and converting the rooming house on the second and third floors into an apartment. Apartment one will require no modifications, however apartment two will require some minor living area modifications.
