Re: Proposal for Survey & Civil Engineering

Addendum 1

This Addendum sets forth the Q&A for questions received by the CRDA website pursuant to section 1.5 of the RFP documents before the Q&A deadline of April 24, 2019 at 12:00 pm. Any questions received after the deadline will not be entertained.

Q1 We have a question pertaining to the CRDAs RFP for Survey and Civil Engineering Services: ***Can a firm submit for only Surveying Services, or must a proposal address both disciplines?***

A1 You need to address both disciplines, you are able to subcontract services your firm does not provide. The fee schedule must be complete.

Q2 We are interested in submitting a proposal to the CRDA. However, I see that you have grouped Survey and Civil Engineering services in your request. We are a survey firm but we do not currently offer civil engineering services. Would you still accept a proposal from us for survey-related services only? Thank you.

A2 No, all services must be provided, refer to the answer A1

Q3 Section 1.2 of the RFP states that “services shall include, but are not limited to, inspection, reporting, abatement oversight and post-abatement compliance inspections in Atlantic City, New Jersey, as more fully set forth in the Section 2, Scope of Services, of this RFP.” Section 2 lists survey services, civil engineering, attendance at meetings and certain submittals. Please clarify the scope of services covered under this RFP.

A3 We do not anticipate abatement. Use the Scope of Services as your guide.

The respondent is responsible to ensure that all changes necessitated by Addenda are accounted for and incorporated into the respondent's response to the Solicitation. All instructions, terms and conditions of the Contract Documents shall remain unchanged, unless expressly modified by the Authority.
